LIVINGSTON COUNTY
EARLY COLLEGE

Livingston County Early College Welcome and Introduction

Thank you for your interest in the Livingston County Early College program. We are excited to provide our Livingston County high school students an opportunity to earn their high school diploma while simultaneously completing a college certificate, industry credentials and certifications.

The Livingston County Early College (LCEC) is an exciting and effective way for students to earn college credits and industry certifications while still in high school. Through this innovative program, students will be able to save both time and money as they pursue a college credential. In order to complete the coursework required for this program, students will commit to spending three years in the LCEC program, grades 11, 12, and 13.

Students apply for admission to the LCEC in grade 10 and through September 30th of grade 11. If accepted, students in 11th grade will be applying their articulated college credits from their corresponding CTE program, as well as continuing to complete high school graduation requirements. In grade 12 students begin taking college classes at their post secondary institution, either Lansing Community College Parker Campus, Washtenaw Community College, or Cleary University. Students are able to participate in any high school activities as well as walk in graduation. In year 13 early college students will complete their high school graduation math requirement and their college program of study. At the completion of year 13 students will leave with their high school diploma, any industry credentials and college credits/degrees they have earned.

Students in the LCEC program will receive support services to assist them in their transition from high school to college. All LCEC students will complete mandatory College Readiness Seminars in the summer after grade 11. These sessions will help to develop their academic preparation skills, study skills development, and social maturity skills. Students will also work closely with the LCEC coordinator who will serve as a “success coach” as they progress through the program. In addition, students will still have access to their traditional high school support system, as well as student support services available through our post-secondary partners.

We are excited to help you start your path to success! If you are interested in the Livingston County Early College, please submit your completed application to your high school counselor by May 14, 2021.

Sincerely,

Michelle Radcliffe
